P R O C E E D I N G S

MR. KEEFE: Good evening. My name is Dan Keefe, and I am EPA'S Superfund Section Chief. I work with EPA's New England Regional Office. I will be the hearing officer for tonight's hearing on the proposed cleanup plans for the Walton and Lonsbury Superfund Site in Attleboro, Massachusetts.

The purpose of this hearing is to formally accept oral comments on the proposed plan that was released to the public on July 26, 2019. As a reminder, the public comment period runs until August 26, 2019. As you heard moments ago, the EPA finished the public information portion of tonight's meeting on EPA's proposal.

To repeat what was said earlier, the purpose of the informal meeting was to present the proposed cleanup and respond to questions about the site. Now with the formal public hearing portion EPA has a

00:00:57 stenographer here to record any comments.
00:00:58 We will not be responding to comments
00:01:00 during the formal hearing but will respond
00:01:03 to them in writing at the close of the
00:01:05 comment period.

00:01:07 For the record, the proposed plan
00:01:09 includes the removal and off-site disposal
00:01:13 of the remaining portion of the Walton and
00:01:16 Lonsbury facility, soil excavation at the
00:01:18 former Walton and Lonsbury property and
00:01:20 off-site disposal of contaminated soil,
00:01:23 soil treatment at the former Walton and
00:01:27 Lonsbury property, extension of the
00:01:27 permeable reactive barrier along Bliss
00:01:34 Brook, mid-plume treatment along the west
00:01:38 side of North Avenue, soil excavation and
00:01:44 off-site disposal of contaminated surface
00:01:47 soil in residential yards, a contingency
00:01:51 remedy of bedrock groundwater treatment
00:01:54 west of North Avenue if additional
00:01:56 investigations indicate groundwater
00:01:59 contaminants are found to exceed drinking
00:02:01 water standards in the downgradient

00:02:04

aquifer.

00:02:49

The overall remedy will also include land-use control to protect the remedy where unrestricted use standards are not achieved. They will also include long-term monitoring and maintenance and periodic five-year reviews to ensure the protectiveness of the remedy once constructed.

The total estimated cost of this proposed remedy is approximately \$22 million.

Copies of the proposed plan are available at the back of the room. Those of you wishing to comment should have indicated your desire to do so by signing up on the sign-in sheet. When called on please state your name and address or affiliation.

If there are any others who would like to enter a comment but did not sign up, we will take your comments after the folks on the sign-in sheet have offered

00:02:51 their comments. After all the comments
00:02:54 have been heard, I will close the formal
00:02:57 hearing.

00:02:57 If you wish to submit written
00:02:59 comments, you can hand them to me tonight
00:03:00 or you can mail, fax or email them to
00:03:05 Ethan Finkel at the address in the plans.
00:03:08 At the conclusion of the hearing please
00:03:09 see any of the EPA representatives if you
00:03:12 have questions about how to submit a
00:03:14 comment.

00:03:15 All oral comments that we receive
00:03:17 tonight and the written comments that we
00:03:18 receive during the comment period will be
00:03:20 addressed in a responsiveness summary and
00:03:23 become part of the administrative record
00:03:25 for the site and will be included with the
00:03:27 site cleanup decisions.

00:03:31 Thank you for coming this evening
00:03:32 as public input is an important factor in
00:03:35 the EPA's decision-making process. If you
00:03:37 have a prepared statement, we ask if you
00:03:39 would be willing to leave it.

00:03:42 We will now begin the formal
00:03:43 hearing. The first speaker is Richard
00:03:49 Conti. Please come to the mike and state
00:03:50 your comments.

00:03:58 MR. CONTI: My name is Richard
00:04:02 Conti. I reside at 100 Berwick Road in
00:04:03 Attleboro. I am an elected official for
00:04:05 the City of Attleboro. I am a city
00:04:09 councilor at large.

00:04:10 My comment is I wish for the EPA
00:04:12 to consider an additional component to
00:04:15 their proposed plan, the component to be a
00:04:18 communication plan whereby the EPA would
00:04:22 communicate to the residents affected and
00:04:25 rather than relying on residents to refer
00:04:30 to a website for information to take a
00:04:33 proactive stance and inform residents in
00:04:37 advance of new information being posted on
00:04:40 a website.

00:04:41 I believe that the EPA should
00:04:44 consider the residents to be informed at
00:04:47 an equal level as the Attleboro Health
00:04:50 Department and local officials and see

00:04:55 that there may be additional costs for the
00:04:58 communication plan, but it should be
00:05:02 included in the proposal to the superfund
00:05:06 proposal. That concludes my comment.

00:05:11 MR. KEEFE: Thank you. Parker
00:05:14 Silva, is he still present?

00:05:19 THE AUDIENCE: He left.

00:05:22 MR. KEEFE: There were only two
00:05:24 individuals entering tonight that
00:05:26 indicated they knew they wanted to
00:05:27 comment.

00:05:28 I'll now open it to anybody else
00:05:29 that would like to add a comment. I just
00:05:31 ask that you use the mike and state your
00:05:33 name. Any other comments?

00:05:41 With that thank you for
00:05:47 participating this evening. Remember, the
00:05:50 public comment period for making written
00:05:52 comments closes on August 26.

00:05:55 This hearing is now officially
00:05:57 closed.

(Whereupon, the hearing was closed
at 7:41 P.M.)

WALTON AND LONSBURY SUPERFUND SITE
FORMAL PUBLIC HEARING

Wednesday, July 31, 2019
Attleboro Public Library
Attleboro, MA 02703
7:35 P.M.

2

PROCEEDINGS

MR. KEEFE: Good evening. My name is Dan Keefe, and I am EPA'S Superfund Section Chief. I work with EPA's New England Regional Office. I will be the hearing officer for tonight's hearing on the proposed cleanup plans for the Walton and Lonsbury Superfund Site in Attleboro, Massachusetts.

The purpose of this hearing is to formally accept oral comments on the proposed plan that was released to the public on July 26, 2019. As a reminder, the public comment period runs until August 26, 2019. As you heard moments ago, the EPA finished the public information portion of tonight's meeting on EPA's proposal.

To repeat what was said earlier, the purpose of the informal meeting was to present the proposed cleanup and respond to questions about the site. Now with the formal public hearing portion EPA has a

3

stenographer here to record any comments. We will not be responding to comments during the formal hearing but will respond to them in writing at the close of the comment period.

For the record, the proposed plan includes the removal and off-site disposal of the remaining portion of the Walton and Lonsbury facility, soil excavation at the former Walton and Lonsbury property and off-site disposal of contaminated soil, soil treatment at the former Walton and Lonsbury property, extension of the permeable reactive barrier along Bliss Brook, mid-plume treatment along the west side of North Avenue, soil excavation and off-site disposal of contaminated surface soil in residential yards, a contingency remedy of bedrock groundwater treatment west of North Avenue if additional investigations indicate groundwater contaminants are found to exceed drinking water standards in the downgradient

4

aquifer.

The overall remedy will also include land-use control to protect the remedy where unrestricted use standards are not achieved. They will also include long-term monitoring and maintenance and periodic five-year reviews to ensure the protectiveness of the remedy once constructed.

The total estimated cost of this proposed remedy is approximately \$22 million.

Copies of the proposed plan are available at the back of the room. Those of you wishing to comment should have indicated your desire to do so by signing up on the sign-in sheet. When called on please state your name and address or affiliation.

If there are any others who would like to enter a comment but did not sign up, we will take your comments after the folks on the sign-in sheet have offered

their comments. After all the comments have been heard, I will close the formal hearing.

If you wish to submit written comments, you can hand them to me tonight or you can mail, fax or email them to Ethan Finkel at the address in the plans. At the conclusion of the hearing please see any of the EPA representatives if you have questions about how to submit a comment.

All oral comments that we receive tonight and the written comments that we receive during the comment period will be addressed in a responsiveness summary and become part of the administrative record for the site and will be included with the site cleanup decisions.

Thank you for coming this evening as public input is an important factor in the EPA's decision-making process. If you have a prepared statement, we ask if you would be willing to leave it.

We will now begin the formal hearing. The first speaker is Richard Conti. Please come to the mike and state your comments.

MR. CONTI: My name is Richard Conti. I reside at 100 Berwick Road in Attleboro. I am an elected official for the City of Attleboro. I am a city councilor at large.

My comment is I wish for the EPA to consider an additional component to their proposed plan, the component to be a communication plan whereby the EPA would communicate to the residents affected and rather than relying on residents to refer to a website for information to take a proactive stance and inform residents in advance of new information being posted on a website.

I believe that the EPA should consider the residents to be informed at an equal level as the Attleboro Health Department and local officials and see

that there may be additional costs for the communication plan, but it should be included in the proposal to the superfund proposal. That concludes my comment.

MR. KEEFE: Thank you. Parker Silva, is he still present?

THE AUDIENCE: He left.

MR. KEEFE: There were only two individuals entering tonight that indicated they knew they wanted to comment.

I'll now open it to anybody else that would like to add a comment. I just ask that you use the mike and state your name. Any other comments?

With that thank you for participating this evening. Remember, the public comment period for making written comments closes on August 26.

This hearing is now officially closed.

(Whereupon, the hearing was closed at 7:41 P.M.)
